

Annual Report Fiscal Year 2001-2002

**Hawaii County
Police Department**

Hawaii County Police Department

2001-2002 Annual Report

Hawaii County Police Commission
County of Hawaii
101 Aupuni Street
Hilo, Hawaii 96720

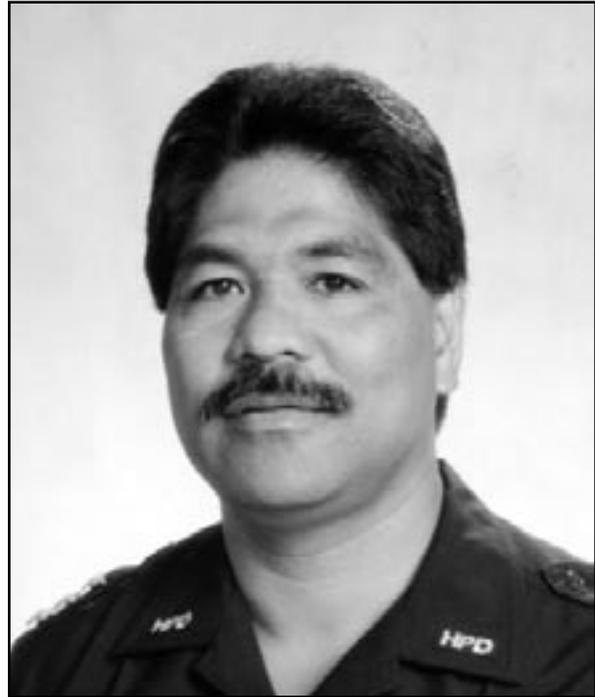

Dear Commissioners:

In accordance with the provisions of Section 52D-2 of the Hawaii Revised Statutes, and Article VII, Chapter 2, Section 7-2.4, of the Hawaii County Charter, I am pleased to submit to you the Annual Report of the Hawaii County Police Department for Fiscal Year 2001-2002.

Among the accomplishments made during the fiscal year were the development and implementation of the automated "Crime Capture" and "Livescan" booking system, which electronically photographs and fingerprints directly into the computer system. This system has saved the Department both time and money.

In addition, the Department made substantial progress on the construction of a police cell-block facility in Hilo, the upgrading of its microwave radio system and the acquisition of a new Records Management System.

The Department continued to lead the state in clearance rates for all categories of index crimes. Its Traffic Enforcement Unit was awarded again for its efforts to reduce drunk driving. And Vice officers made important

JAMES S. CORREA
Police Chief
Hawaii County Police Department

drug busts and broke up a major drug smuggling ring from Mexico.

We hope this year's annual report will give you a better understanding of what the Police Department has done for the Big Island community during the 2001-2002 fiscal year.

I and members of the Department want to express our deepest appreciation for the support you have given to us over the past year.

JAMES S. CORREA
POLICE CHIEF

Hawaii County Police Commission

2001-2002 Annual Report

The Honorable Harry Kim
Mayor, County of Hawaii
25 Aupuni Street
Hilo, Hawaii 96720

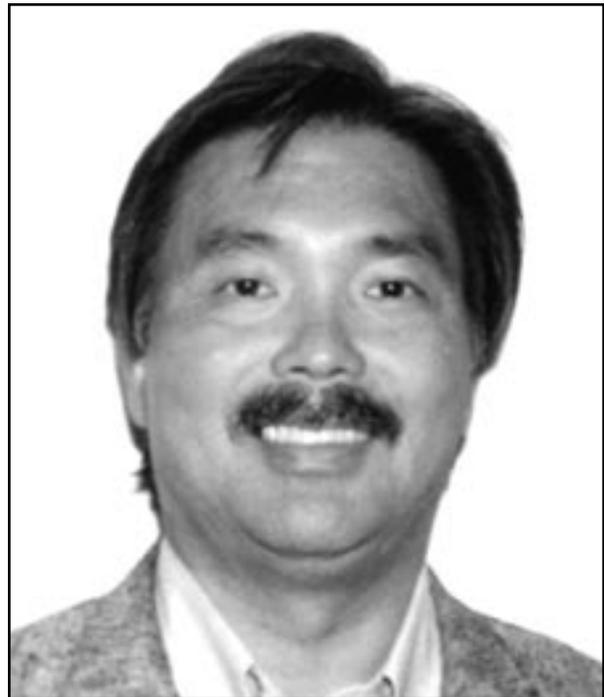

Dear Mayor Kim:

The Hawaii County Police Commission takes pleasure in submitting to you the Annual Report of the Hawaii County Police Department for Fiscal Year 2001-2002.

The fiscal year saw substantial progress made in the construction of a new police cellblock facility in Hilo, the upgrading of the Department's microwave radio system and the creation of a new Records Management System.

The support you have given the Department, both as Mayor and as Civil Defense Administrator, is greatly appreciated by the Commission and the men and women of the Department.

WILFRED M. OKABE

Hawaii County Police Department Mission Statement

We, the men and women of the Hawaii County Police Department, are dedicated to creating a safe environment for the community through service, integrity, professionalism, respect and fairness.

We are committed to these principles:

Service

We are committed to protecting life and property, preventing and solving crime, reducing fear, and providing a safe environment for all. We will strive to work in unity with our community to develop a partnership in solving problems and to be responsive to community needs and concerns.

Integrity

We will strive to serve with integrity and to deal with each other and the community with honesty and sincerity.

Professionalism

We will endeavor to maintain the public's confidence through professional performance and to take every reasonable opportunity to maintain a high level of knowledge and training.

Respect

We recognize the value of our unique cultural diversity and are dedicated to treating all people with respect, kindness, and tolerance. We will protect the rights, liberties, and freedoms of all as granted by the constitutions and laws of the United States and State of Hawaii.

Fairness

We will make every effort to be consistent in our treatment of all persons. We believe in tempering our actions with reason and fairness and in making objective, impartial decisions and policies.

Organization Chart Hawaii County Police Department

POLICE COMMISSION — The current members of the Hawaii County Police Commission are, front row from left, John M. Bertsch, Horace Hara, Phoebe Lambeth, Dwight Manago, Peter L. Hendricks and Walter Moe; back row, Wilfred Okabe, Peter P. Muller and Daniel C. Kama.

New member from Kohala District named to Hawaii County Police Commission

The Hawaii County Police Commission is comprised of nine Big Island residents who volunteer their time to oversee the Police Department.

The members, appointed by the mayor and confirmed by the County Council, represent each of the nine Council districts and serve staggered terms of five years each.

The commission members elect their own chairman and vice chairman each year. The commission chairman for 2001 is Wilfred M. Okabe; the vice chairman is Dwight K. Manago.

By the end of the fiscal year, one new commissioner had been appointed and confirmed. He is Peter L. Hendricks, who represents the District of North and South Kohala. He replaced Commissioner Clarence Mills.

The commission has the following responsibilities mandated by the County Charter:

- To appoint and remove the Chief of Police.
 - To evaluate annually the performance of the Chief of Police and submit a report to the mayor, managing director and the County Council.
 - To review the Police Department's operations for the purpose of recommending improvements to the Chief of Police and Managing Director.
 - To advise the Chief of Police on police and community relations.
 - To review the annual budget prepared by the Chief of Police and possibly make recommendations to the Mayor.
- 

'Livescan' allows inkless fingerprinting, 'instant' computer identification

The Hawaii County Police Department has been piloting a new computer system that can photograph and fingerprint a suspect electronically and find out in a matter of hours whether the arrestee is wanted anywhere else in the United States.

The Hawaii Criminal Justice Data Center (HCJDC) chose Hawaii County as the first to pilot out the new system, which integrates the functions of "Livescan," a computerized fingerprinting system, and "Crime Capture," an electronic mug shot system, with the integrated information system.

Using the new system, a police officer in Hilo or Kona can electronically photograph and fingerprint a suspect directly into the department's computer system without the use of perishable film or messy ink.

A computer program dubbed the "Green Box" then assembles the information into formats that can be read by the State's Offender-Based Transaction Statistics/Computerized Criminal History (OBTS/CCH) and Automated Fingerprint Identification System (AFIS).

Once HCJDC gets the information from the Big Island, it can query the Federal Bureau of Investigation electronically and find out whether the suspect is wanted elsewhere. The FBI will respond to the query within two hours—a process that used to take up to two months when fingerprints were transmitted manually.

For police officers, the greatest benefit is the time it saves in booking and mugging a suspect and filling out the paperwork—a process that

has been shortened from 60 to 20 minutes.

The Green Box takes the information typed into the computer, the fingerprints and the mug shots and sends that packet electronically to HCJDC in Honolulu.

Once the suspect is identified in the state system, the fingerprint files can then be sent electronically to the FBI, which can electronically compare a suspect's fingerprints with the more than 38 million prints it stores in its computers.

Currently, the department uses the Green Box software at 13 booking sites, plus one more in its Records and Identification Section.

Only the South Hilo and Kona police districts, however, have the capability now of using the Livescan fingerprinting and Crime Capture mug shot systems.

The other booking sites continue to take Polaroid mug shots and to ink and role fingerprints of suspects. The prints and mug shots are later scanned into the computer system and the mug photo filed.

However, booking officers throughout the county no longer have to type out fingerprint cards. They simply print a card from the Green Box and then ink and roll.

They now prepare their reports by making data entry into the Green Box and then printing out the reports. The Green Box automatically generates an identifying tracking number and automatically transfers to it all data needed for the statewide OBTS/CCH.

TEU AWARD WINNERS—Three members of the Hawaii County Police Department’s Traffic Enforcement Unit have received MADD awards in three years. They are Officer Christopher Gali, left, Sergeant Samuel Jelsma and Officer Robert E. Hatton.

Traffic Enforcement Unit wins MADD award for DUI arrests for third year in a row

Officer Christopher Gali was named the winner of the 2002 MADD-Hawaii Law Enforcement Award for distinguished service in the prevention of drunk driving.

The award was presented by the statewide Mothers Against Drunk Driving group at its annual meeting in Honolulu.

It marked the third year in a row that an officer from the Big Island’s Traffic Enforcement Unit has won the award. Last year, Officer Robert E. Hatton won the award, and in 2000, Sergeant Samuel V. Jelsma, head of the unit, was the recipient.

Officer Gali arrested 61 of the 835 drivers arrested in 2001 for drunk driving.

In recommending Gali for the award, Sergeant Jelsma said: “The vast majority of cases were closed—arrested and charged or later deferred

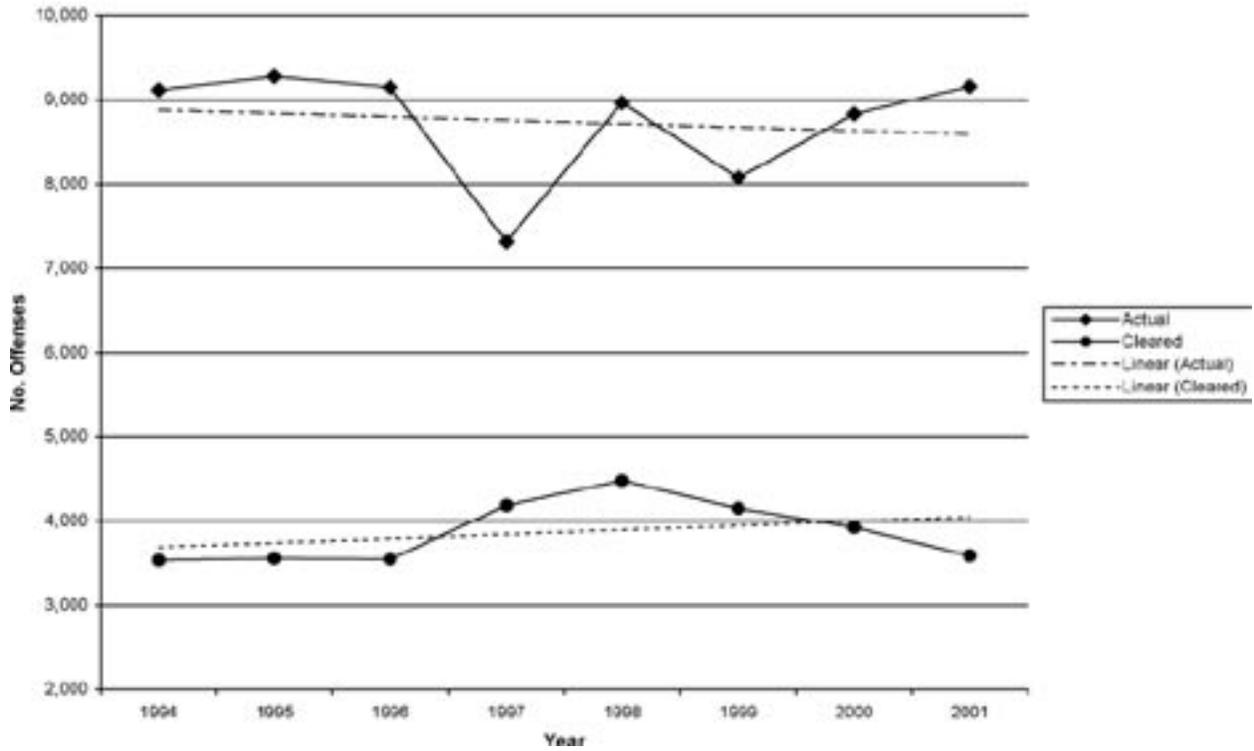

to the prosecutor for charging—with only a handful released without charges due to a breath sample under the legal .08 percent breath alcohol content standard.”

Jelsma went on to say that Gali “has developed the reputation that he is fair, but unwavering of the DUI laws and puts his personal feelings aside when he puts on his uniform.”

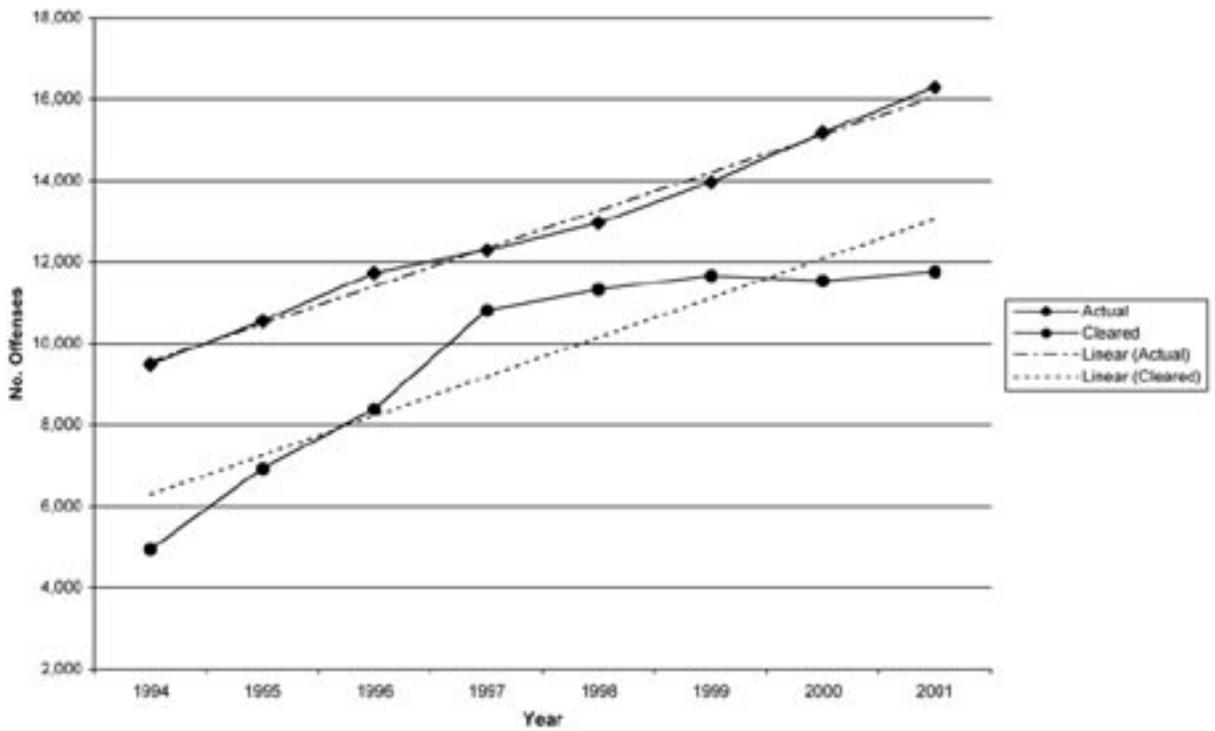

During the previous year, Officer Hatton won the award for arresting 104 of the total 1,081 DUI arrests made that year. Forty-three of the arrests were made while Hatton, a patrol officer in the Puna District at the time, had a police recruit assigned to him for police training.

In 2000, MADD recognized Jelsma’s leadership in combatting drunk driving. The organization noted that after Jelsma took over as head of the TEU, the unit made 251 DUI arrests, compared to 90 during the same period the year before—an increase of 179 percent.

Part I Offenses 1994-2001

Part II Offenses 1994-2001

Big Island continues to lead state in clearance rate of overall crimes

During calendar year 2001, Hawaii County continued to record the highest clearance rate for all categories of index crimes.

The Big Island had a clearance rate of 24.1 percent, down from the 26.6 percent clearance rate set the previous year.

By comparison, Maui had a clearance rate of 19.7 percent, up from the 12.1 percent recorded the previous year. Kauai's clearance rate was 15.7 percent, down from the 18.9 percent recorded the year before. In 2001, Honolulu recorded a clearance rate of 11.0 percent, down from the 12.7 percent cleared the year before.

The number of violent crimes increased on the Big Island by 16.9 percent from the year before, climbing from 237 to 277. Property crimes also increased by 8.4 percent, from 6,188 to 6,708.

The charts on the opposite page graphically illustrate the crime and clearance rates for the past eight years on the Big Island. The straight broken lines represent the eight-year trend of actual crimes and clearances.

The top chart shows that the number of Part I offenses—murder, non-negligent manslaughter, rape robbery, aggravated assault, burglary, larceny and auto theft—increased slightly, from 8,832 in 2000 to 9,163 in 2001, an increase of 3.2 percent. The clearance rate for Part I offenses for the one-year period also declined, from 44.4 percent to 39.2 percent.

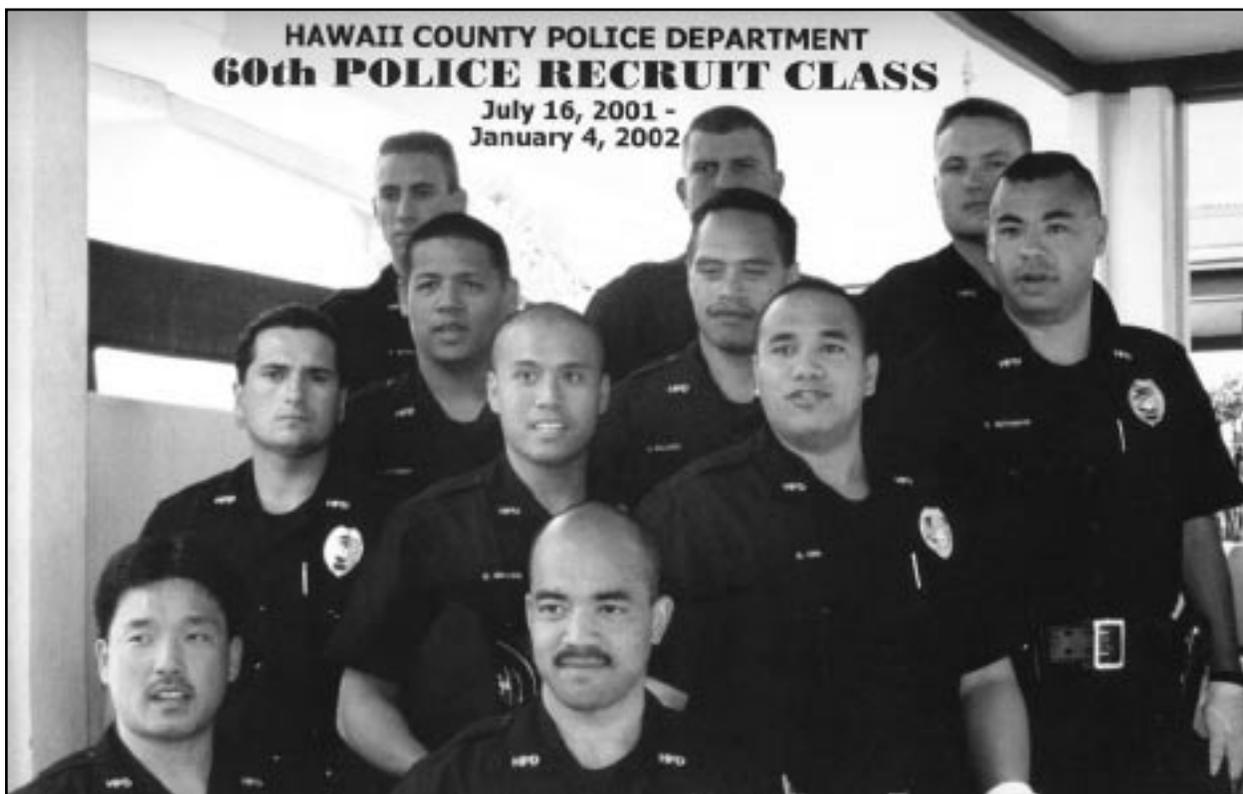

The general trend for Part I offenses over the past eight years, however, is a slight decline, while the general trend for the clearance of Part I crimes is a slight increase.

The bottom chart shows an increase in Part II, or less serious, offenses—such as vandalism, embezzlement, drug violations, drunk driving and gambling—from 15,175 in 2000 to 16,285 in 2001. This represents an increase of 7.3 percent. The clearance rate for Part II offenses in 2001 was 72.2 percent, down from the 76.0 percent clearance rate set the year before.

The general trend over the past eight years shows that the increase in Part II offenses has been matched by a similar increase in cases cleared. 

NEW OFFICERS—Two new police graduation classes were sworn in during the fiscal year. Twelve members of the 59th Police Recruit Class, shown above with their instructors, were sworn in after undergoing 25 weeks of police training. Eleven members of the 60th Recruit class were sworn in on January 9, 2002, after undergoing similar training. In addition, 11 members of the 61st Recruit Class began training in May 2002.

HAPPY ENDING—Officer Gerald Wike of the Kona Juvenile Aid Section helped recover 4-month-old Alexander Meneses and return him to his mother, Coalia Isabel Calderon, shown holding the baby. Looking on, from left, is Lillie Wong, a senior investigator with the Los Angeles County District Attorney's Office; Kim Page, a nurse examiner with the Hawaii County Police Department; and Shelley Bowman, also a senior investigator with the Los Angeles County District Attorney's Office.

Kona JAS officer honored for finding infant

Officer Gerald Wike of the Kona Juvenile Aid Section was recognized by the National Center for Missing & Exploited Children for his efforts to find and return a 4-month-old baby to his mother.

Wike received a Certificate of Achievement from the group for his outstanding efforts in returning the child to his mother.

The officer got involved in the case after he learned that the boy's father, Edgardo Rene Meneses had taken the boy, Alexander, from his mother, Coralia Isabel Calderon, on July 3, 2001, in Gardena, California, and fled to Hawaii.

Officer Wike had been in touch with the mother in California. She told him that Meneses had been calling her daily, demanding money and threatening that if she didn't give him money, she would never see her son again.

On August 3, 2001, Calderon called Wike and said Meneses had called her and told her

he had the baby was somewhere in the South Kona area.

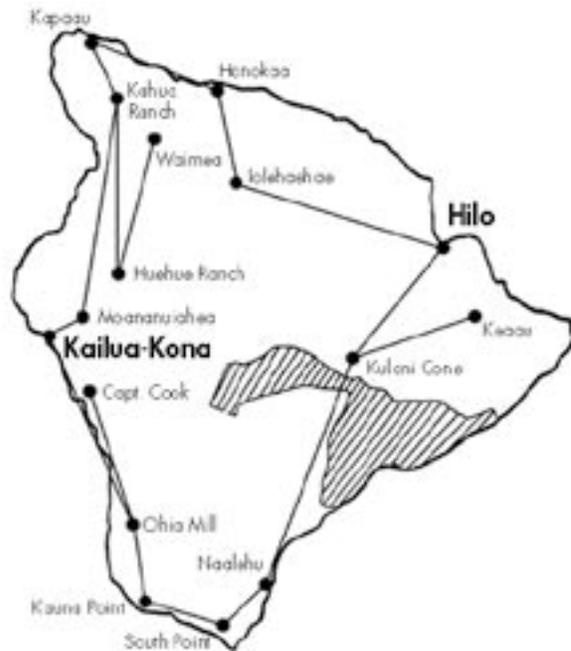

Wike decided to check Hookena Beach. When he arrived at the beach, he spotted Meneses with the baby outside in the shower area. Wike alerted other units in the area, including the FBI, then waited for them to arrive.

When the units arrived, Meneses was sitting in the driver's seat of a van. Wike approached the van from the driver's side, and his partner approached from the opposite side. They saw the infant sleeping in the passenger's seat.

Wike then distracted Meneses, and his partner opened the driver's door. Before Meneses could react, he was arrested. Wike then took the sleeping baby from the van and notified Child Protective Services to take custody of the infant.

A few days later, the baby's mother flew to Hawaii from California to pick up the baby. The mother and child were reunited at the police station.

MICROWAVE GRID—The map of the Big island, right, shows the grid of Hawaii County's microwave telecommunications system. The dots represent microwave towers; the straight lines, microwave transmissions between towers.

Progress made on major projects: cellblocks, microwave and records management system

The Police Department has made major progress toward completion of three ongoing projects.

The first project is the construction of a \$4.2 million police cellblock facility. The 10,000-square-foot facility with 18 holding cells and two high security holding areas is being built to relieve over crowding of pretrial detainees in the Hilo station cellblock. It is schedule to open in February 2003.

The department has also contracted a vendor to upgrade the county's microwave radio system. The \$10.5 million system will replace the current system, which is 25 years old.

The first phase will involve replacing the existing 2 GHz analog system with a 6 GHz digital microwave system that will support an 800 MHz or UHF-trunked system.

The second phase of installing the trunked system is estimated to cost \$21 million.

The microwave upgrade is scheduled for completion in 2002; the second phase, in 2006.

By February 2004, the department expects to have in place a fully functional Records Management System that will integrate with the existing Computer-Aided Dispatch.

The \$1.8 million RMS is funded through a COPS Technology Grant and forfeiture funds.

The system will cut down on the redundancy of inputting data by by police and clerks, make retrieval of reports immediate, improve case management and accountability, increase the ability to analyze law enforcement data and integrate all divisions and districts into one computerized system.

Special Response Team called out to assist in Ka'u drug bust; heroin ring destroyed

The Hawaii County Police Department's Special Response Team or SWAT team, was called out for the first time in a drug bust at a residence in Hawaiian Ocean View Estates in the Ka'u District.

On April 12, 2002, officers from the Kona Vice Section arrested three persons on a search warrant issued in response to numerous complaints from H.O.V.E. residents about drug activity, firearm violations threats, thefts and burglaries.

The three suspects—an adult male, 40, a female, 41, and a male juvenile—were arrested for numerous drug, explosives and firearm offenses. Executing the warrant, officers found 29 grams of crystal methamphetamine, 59 grams of dried processed marijuana, 208 growing marijuana plants ranging in height from seedlings to three feet, hydrocodone pills, a 9mm semiautomatic pistol, an altered .30-caliber rifle, a .45-caliber submachine gun, ammunition for various calibers, a blasting cap and a seal bomb explosive. They also recovered more than \$1,000 in recovered appliances, tools and other items determined to be stolen.

In addition to the search warrant charges, the adult male was held for nine arrest warrants from Honolulu with bail exceeding \$20,000.

The vice officers were assisted by the Special

Response Team, Criminal Investigation Section, Ka'u Patrol Division and federal agents from the Drug Enforcement Administration and the Bureau of Alcohol, Tobacco and Firearms.

The Special Response Team was called out because of the adult male's past criminal history involving violence and firearms and drug use. The suspect was arrested without incident and no one was injured.

The operation was also one of the first cases in the state to be prosecuted federally under the Safe Neighborhood Program.

In December 2001, a 12-month investigation dubbed "Operation Pipeline" focused on the importation and distribution of heroin from Mexico. The investigation was completed and resulted in a number of arrests.

Federal, state and county law enforcement officer executed 26 search warrants on the Big Island and Oahu. They arrested 60 persons for drug, money laundering, firearms and immigration charges.

As a result of the successful operation, officers seized 17.5 pounds of "brown" and "black tar" heroin, 2.8 pounds of cocaine, 11 ounces of marijuana, 5.5 ounces of crystal methamphetamine, 24 firearms, four vehicles and \$174,094 in U.S. currency. 

EMPLOYEE OF THE YEAR—Sharon Perreira, a latent examiner with the Records and Identification Section, was named Employee of the Year in Hawaii County. She began her career with the department in September 1976 as a CETA worker.

Perreira named 'County Employee of Year'

Sharon Perreira, a latent examiner with the Records and Identification Section, was named Hawaii County Employee of the Year for 2001.

Perreira's duties as latent examiner are to classify fingerprints and to examine and compare fingerprints recovered at crime scenes. She must also prepare photo lineups and take care of all photographs taken as evidence.

She began her career with the Hawaii County Police Department in September 1976 as a CETA worker. She worked her way up as a fingerprint classifier and fingerprint technician until she reached her present classification in 1996.

Perreira utilized department classes and self-education to learn every phase of the Records and Identification Section. She has also put her knowledge to good use.

Responsible for implementation of fingerprint procedure in the department, she has devised detailed instructions on each phase of fingerprinting offenders. She teaches police recruits fingerprinting procedures that include recovery of latent fingerprints and inking fingerprints. She also trains personnel in the various areas of her section, including training for case reviews used to determine the disposition of evidence in preparation for closing criminal reports.

Perreira has devised forms relating to fingerprint comparison, which has resulted in increased efficiency and timely procedures.

She has been instrumental in the successful prosecution of many criminal defendants. Her persistence in comparing fingerprints with known offenders has frequently resulted in the apprehension of criminal offenders who otherwise would never have been arrested. 

Nine retire during fiscal year 2001-2002

Nine persons—six police officers and three civilian employees—retired from the police department during the fiscal year of 2001-2002.

The officers were:

- Francis H. Rodillas retired as captain of the South Hilo Patrol District on November 30, 2002. He was appointed in November 1971. His service areas included South Hilo and North Hilo Patrol, Hilo Criminal Investigation Section and Criminal Intelligence Unit.
- Louie S. Ondo retired as a lieutenant in the Criminal Intelligence Unit on January 31, 2002. He was appointed in October 1984. His service areas included South Hilo and Puna Patrol and Hilo Criminal Investigation Section.
- Daryl K. Picadura retired as Kona community relations officer on December 28, 2001. He was appointed in January 1979. His service areas included Kona Patrol.
- Elson P. Cabatu retired as a South Hilo community policing officer on August 31, 2001. He was appointed in August 1976. His service areas included Kona and Puna Patrol and Ha-

waii Island Police Activities League.

- Hugh S. Lovell retired as a South Kohala patrol officer on November 30, 2001. He was appointed in January 1979. His service areas included Kona and South Hilo Patrol.
- Wilfred Takabayashi retired as a South Hilo Patrol officer on July 6, 2001. He was appointed in October 1991. His service areas included South Kohala, North Hilo, Puna and Hamakua.

The civilian employees were:

- Dolores Bugado retired as a South Hilo police evidence custodian on March 29, 2002. She joined the department in August 1967. She had also worked as a clerk-stenographer in the North Hilo.
- Linda M. Andrade retired as a supervising radio dispatcher on March 4, 2002. She joined the department in May 1981. She worked as a radio dispatcher in South Hilo.
- Patricia Tabajunda retired as a South Hilo records clerk on July 2, 2001. She joined the department in March 1991. She also worked as a clerk-typist in South Hilo. 

Two promoted to rank of captain as district commanders

The Police Department promoted two lieutenants to fill vacant positions of district commanders.

They are Robert K. Kaaua, who took over as commander of the South Kohala District, and Larry R. Weber, who commands the North Kohala District.

Kaaua is a 22-year veteran with the department and served a lieutenant in charge of the Traffic Services Section. Weber is a 20-year veteran and previously was in charge of the Juvenile Aid Section. Both served as detective sergeants in both the Hilo Vice and Criminal Investigation Sections. Weber also was a lieutenant with the South Hilo Patrol District. 

Department employs 400 sworn officers, 142 civilian personnel on \$35 million budget

As of June 30, 2002, the Hawaii County Police Department had 542 full-time positions.

There were 400 sworn personnel and 142 civilian personnel positions. In addition there were 42, part-time school crossing guards and 23 Police Officer I unfunded temporary positions.

A breakdown of the department's budget for Fiscal Year 2001-2002 follows below.

POLICE DEPARTMENT BUDGET		
Fiscal 2001-2002
